April 2018

STUDENT ASSESSMENT REPORTS

Teachers may send notes or make telephone calls to parents of students whose academic work is deficient. The purpose of these communications is to inform parents of their child's possible failure, and to encourage them to become actively involved in attempts to prevent such failure.

REPORT CARDS – GRADES K-2

Marking in the elementary schools is based the following performance levels

<u>Performance Levels</u>	
4	Exceeds the standard
3	Meets the standard
2	Approaching the standard
1	Area of concern
X	Not graded this term

GRADES 3 and 4

<u>Performance Levels</u>	
A	Advanced (Students at this level demonstrate a comprehensive and in-depth understanding of the rigor subject matter)
P	Proficient (Students at this level demonstrate a solid understanding of challenging subject matter)
NI	Progressing but Needs Improvement (Students at this level demonstrate a partial understanding of subject matter)
W	Warning (Students at this level demonstrate a minimal understanding of subject matter.)
X	Not graded this term

CONFERENCES

Parental conferences are encouraged as an effective means of communication between home and school. At least once a year, usually at the close of the first marking term, conferences are scheduled by school personnel. Frequently, teachers will request additional conferences. Parents are encouraged to initiate additional conferences with the teacher, adjustment counselor, or principal whenever desired. Arrangements for a mutually agreeable time can be made by contacting the school office.

PROMOTION, RETENTION, DROP OUT PREVENTION & TRANSITION

Students in Middle School must pass all four (4) of the core subjects (math, social studies, science, language arts) to be promoted to the 9th grade. Absenteeism of eighteen (18) days during the current school calendar may also result in retention. Those who fail shall be required to attend a summer program in the areas of need (a student can enroll in no more than two areas of study). *Competency must be demonstrated in the areas of summer instruction. In the event that the Oxford Public School District does not offer summer school, students would be required to seek remediation in a neighboring community and demonstrate proficiency. Such remediation would be at no cost to Oxford.*

Students in 4th grade must pass at least two (2) of the following: mathematics, social studies, science, language arts to be promoted to the 5th grade. A pupil may be retained if the final grade of "AC" is received in language arts or mathematics. A pupil may be retained if he/she consistently works below grade level in language arts, mathematics, social studies or science, as recommended by the teacher and principal of the building.

In Elementary School, failure of one or two core subjects and poor performance in other core subjects or any absenteeism of eighteen (18) days during the current school calendar may also result in retention. These individual cases will be handled by the principal.

In support of this policy, the Oxford School Department supports the following procedures as proposed by the National Dropout Prevention Center:

1. All students must be periodically assessed in order to determine their educational progress.
2. School scheduling must be flexible to allow for daily alternative curricular interventions to meet the students' identified needs.
3. Out-of-school experiences must complement and be coordinated with other curriculum-based interventions.
4. Teachers must receive continuous, intensive, professional development in a variety of educational strategies to successfully implement those interventions.
5. Parents must be informed and involved throughout the assessment/intervention process.
6. Sufficient resources must be allocated to provide the support so that all students make continuous progress.

Adopted June 2005

OXFORD PUBLIC SCHOOLS

Elementary Attendance Policy

The Elementary Schools believe that regular attendance and class participation are essential to learning. The schools have the responsibility to provide quality instruction and learning opportunities while teaching the societal values of attendance and punctuality. Everyday attendance provides for uninterrupted learning, less time spent on make-up assignments and full participation in classroom activities.

Regular and punctual attendance is required and monitored. Extended absences should be avoided. Parents will be notified of excessive absences and tardiness. The expectation is that families will not make appointments or take vacations while school is in session. Students must be in school for 3.0 hours or more to be considered “present” for the school day.

Student Absence

The steps listed below must be followed when students are absent from school.

1. The parent must call the school.
Clara Barton School by 8:50 A.M. 508-987-6066
A.M. Chaffee School by 9:05 A.M. 508-987-6057
2. Upon return to school, students must bring in a note signed by their parent explaining the reason for the absence. A note from a doctor may be required following a prolonged absence.
3. For absences due to reasons other than illness or the death of a relative, the school must be contacted prior to absence.
4. Excessive or unexplained absences will result in parent notification, principal follow-up and, if necessary, teacher or principal conference.
5. The student and/or parent must check with child’s teacher about missed work.
6. More than eighteen days absent for a school year may result in a student being retained. Excessive absences and tardies interrupt your child’s learning.
7. A call will be made to a parent by the school if the parent does not call in the student absence.

Making Up Assignments

Students with absences will be given the opportunity to make up work missed in accordance with the following guidelines.

1. It will be the students' and/or parents' responsibility to arrange for making up missed work when the child returns.
2. The time limit for work make-up will be the number of days missed.
3. Teachers **will not** be expected to prepare and/or assign any class work for students to take on a trip or a vacation.
4. Students may be required to do alternative assignments in place of missed classroom activities when going on a trip or a vacation.
5. In order to maximize learning opportunities children should be in school during the regular school session.

Tardy

The following procedures will be abided by when students are late for school.

1. Students will be considered tardy if they are not **in their classroom** on time.
Clara Barton School by 8:50 A.M.
A.M. Chaffee School by 9:05 A.M.
2. Students arriving at school late must report to the office with a parent or guardian to get a tardy slip to turn in to their teacher.
3. Chronic tardiness will result in parent notification, principal follow-up, and, if necessary, a visit from the support staff and/or administration. Habitual cases may be referred to truant officer and/or DCF.

Early Dismissal

The actions listed below must be adhered to when students are being dismissed prior to the end of the school day.

1. Parents must make requests in person or in writing.
2. All children who are being dismissed must be met at the school office.
3. For the safety of the students, a person other than a parent/guardian will be requested to furnish identification prior to the dismissal of a child.
4. Early release of students just prior to the closing of the regular school day is discouraged.
5. Please schedule doctor or dentist appointments after school or during vacation week.

Dress Code

When dressing for school students will:

- Be neat and clean in appearance
- Choose clothing that does not interfere with health and safety (this includes flip flop sandals)
- Choose clothing that is not a distraction to learning such as those with inappropriate advertisements or symbols.
- Short sleeved shirts will be acceptable for all. No tank tops.

Invitation Policy

Students who wish to pass out invitations **in school** for special occasions such as birthdays, special celebrations, or parties, etc., must adhere to the following policy:

- Student must inform the teacher prior to event
- Student can pass out invitations to all students; or
- Student must pass out an invitation to all boys if student is a boy; or
- Student must pass out an invitation to all girls if student is a girl

This policy applies to in school and on the bus.

Code of Conduct

The following guidelines and policies apply to all elementary schools:

Expectations for Student Behavior

The development of good behavior in the elementary school is a teaching process that has a positive effect on the student and the learning environment. School is a place where children and adults learn and spend many hours together. A school needs rules of behavior to make sure that everyone can be free of distraction, fear, or discomfort, so that learning can take place. Each student and teacher has the following rights in school:

- To work in pleasant, safe and orderly surroundings
- To be free from insulting or abusive treatment from others
- To have an atmosphere that encourages learning

School rules are designed to protect these rights.

Oxford Elementary School Students at all times will:

- Respect and not break, damage, or deface the school property – buildings, grounds, materials, and furnishings.
- Respect the personal property and school materials of others.
- Respect the rights of fellow students without fighting, teasing, or name- calling.
- Use language that is free of vulgarity and profanity.
- Be honest in their words and deeds.
- Act in a way that does not disrupt learning.
- Walk, not run, in the hallways and conduct themselves in an orderly manner.

In the cafeteria students will:

- Enter and leave quietly.
- Talk quietly to their friends.
- Clean table and floor around table.
- Cooperate with the cafeteria staff.

Before and after school, students will:

- Arrive at Clara Barton no sooner than 8:35 am and at A.M. Chaffee no sooner than 8:50 am and go directly to their assigned classroom.
- Report to the office if tardy.
- Walk directly home from school on the sidewalk, if there is one, and not on the roadway.
- Always be aware of safety in the walker line.
- Wear helmets if riding a bike and lock the bike in the rack provided upon arriving at school. Written permission from parent/guardian is required.
- Students who are absent or suspended from school will not be allowed to participate in any of the After School or Evening Programs.

At the Bus Stop and On the Bus

- Students will be expected to follow all bus safety rules.
- School policy for cell phones/electronic devices will apply (See p. 17)
- Expectations for student behavior as listed under Code of Conduct, applies. (see p. 9)
- Students who engage in inappropriate behavior will be subject to the same school consequences including suspension from the bus.

Students Who Engage in Inappropriate Behavior

Consequences may range from warnings to loss of certain school privileges to suspension from school.

Each elementary school has a program in place that helps students reflect and improve upon their personal behavior.

If inappropriate behavior disrupts the learning of other children the child may be temporarily separated from the classroom into a designated area in the school. In those rare instances when a child's actions may be detrimental to the health or welfare of the school, the child may be separated from the school 1 – 3 days. In these cases, parents will be notified.

Student Discipline, Suspension and Expulsion

The Oxford Public School District shall adhere to and follow the requirements as to student discipline, including in-house suspensions, short-term suspensions and long-term suspensions, established by Mass. General Laws Chapter 71, Sections 37H, 37H1/2 and 37H3/4 and Code of Mass. Regulations Chapter 603, Sections 53.00 – 53.14, as such statutes and regulations have been most recently amended, a copy of which the superintendent of schools shall have posted on the district web site, and as such may be amended from time-to-time. Regulations and detailed information can be found by accessing the following link: [STUDENT DISCIPLINE REGULATIONS](#)

Suspending Students with Special Needs

1. Suspension shall be defined as any action which results in the removal of a student from the program in his/her I.E.P., i.e., both in-school and out-of-school suspension are included.
2. The Special Education Department Director will receive the "Counselor Copy" of the discipline notice when a special needs student is suspended.
3. The I.E.P. for every special needs student will indicate whether the student can be expected to meet the regular discipline code or if modification is required. If a modified discipline code is required, it will be written into the I.E.P.
4. When it is known that the suspension(s) of a special needs student will accumulate to ten days in a school year, a review of the I.E.P., as provided in the IDEA 1997 Regulations will be held to determine the appropriateness of the student's placement or program.

Section 504 is a federal status that prohibits discrimination based upon a disability. Obligations for school districts start when federal funds are received. Section 504 covers eligible students, employees and other individuals with disabilities for reasonable accommodations that enable them to work or learn. A team knowledgeable of the person determines if the individual meets eligibility criteria. The following is the definition of a disability under Section 504. A person may be considered disabled under the definition of Section 504 if the individual has a mental or physical impairment, which substantially limits one or more of such person's life activities. When a condition does not substantially limit a major life activity, the individual does not qualify for services under Section 504.

Emergency Information

Cancellation of School

When adverse weather conditions threaten, school may be cancelled or delayed two hours. Parents are requested to listen to the local radio and television stations. Please refer to the yearly "NO SCHOOL" notices for a listing of stations. In addition, school district telephone notification system will be used for no school, delayed opening, early dismissal, or emergency notification. Information can also be found on the Oxford Public School District website which is www.oxps.org. The local cable station will also carry emergency information.

A delayed opening means that all schools will open two hours later: Clara Barton school will begin at 10:50 am and A.M. Chaffee school at 11:05 am, with all bus routes also starting approximately two hours later than the regular pick up time. On days when there is a delayed opening, morning pre-school sessions will be cancelled. Afternoon pre-school sessions will start at the regular time.

On rare occasions it may be necessary to have an early dismissal. Please prepare a plan and discuss it with your children. **Make sure that you keep the school office updated with phone numbers.**

LOCKDOWN-DRILLS

Lockdown and shelter in place drills are held at regular intervals throughout the school year. The District has adopted A.L.I.C.E. as our protocol:

1. Alert- The building will be notified of the exact threat that may be in the building
2. Lockdown- Staff and students to go to a locked room, move away from the door and remain silent.
3. Inform- Staff will wait for any real time updates to be prepared to make decisions of possible evacuation.
4. Counter- Staff and students will prepare to counter and disrupt the intruder if they enter the room.
5. Evacuate- Staff will determine if it is safe to evacuate or remain in lockdown until the crisis is over.

Please note that there is no prescribed order to the above acronym and teachers are trained to make decisions in the best interest of everyone's safety. These drills and conversations will be ongoing with students, the community and parents. It is something we all hope never will be needed, but we need to be prepared and know how to react if needed.

Transportation

Bus Regulations

The School Committee has established that elementary school children who are not regular bus students will not be permitted to travel on school busses, nor will regular bus students be allowed to ride alternate busses, or get off assigned busses anywhere other than their regular bus stops. Exceptions to this policy will be considered, on an individual basis. Such requests must be presented in writing to the building principal. Sudden emergencies will be handled as they arise.

Students attending meetings of Scouts, Campfire Girls, Religious Education classes, etc., or visiting friends, going to parties, and the like, must find other means of arriving at their destination. If regular bus students wish to be excused from riding home on the bus, they must present a note requesting that permission.

Bicycle

Students must have written permission from a parent/guardian in order to ride a bike to school. Bicycle racks are provided at school. Bikes are to be kept in the rack throughout the day. Lock your bikes. The school is not responsible if your bike is stolen. Students are required to wear bicycle helmets when riding their bike. Children not wearing helmets will lose their privilege of riding a bike to school.

Related Services

In an effort to assist students in reaching their full potential, supportive services are available.

Guidance/School Adjustment Counselors

Guidance personnel strive to understand and promote better student adjustment and achievement. Parents are invited to request, through the principal, assistance from the guidance department whenever the need arises.

Title 1

In schools that qualify for Title 1 services, supportive instruction in reading and/or math is available.

Special Education / IDEA 1997

In accordance with Massachusetts General laws, IDEA 1997, screening and evaluation procedures are followed to identify students in need of other special services. These may include speech therapy, learning disabilities instruction, or adjusted class placement. Through cooperative effort between parents and school personnel, individual student programs are established to meet these special needs.

Academic Support

Instructional staff at Clara Barton and AM Chaffee will provide remediation and/or enrichment after school every other week.

Food Service

The school lunch program offers a nutritious meal at minimum cost. Free and reduced lunches are available to those who qualify. Applications for these are sent home at the beginning of the school year and are available at other times by request. Milk is available for those students who bring their lunches to school.

From the District Wellness Policy:

3.1 All foods and beverages comply with the USDA regulations and state policies and all food safety and security guidelines.

a. We always consider food safety, that includes food allergy and sanitation.

Any food brought by students may not be shared with others.

No food is allowed from outside vendors.

All food/nutrition associates are food allergies and ServSafe certified.

3.2 Food is prohibited as a discipline or reward for students both in and out of the classroom.

Snacks will be scheduled only when they can be served two hours before or after scheduled lunch times.

3.3 Send nutrition information home to parents: newsletter, menus, backpacks, etc.

3.4 Any school function that includes food must have healthy food choice made available to all.

All functions must be approved by the designated person at each school.

a. All school functions do provide healthy choices and are approved by the Food Service Director.

School Activities

Visiting the School

We are happy to have parents visit our schools. However, as welcome as parents are, such visits may also focus attention away from classroom instruction and become a distraction to both the teachers and students. Parents are welcome to visit after arranging a time with the classroom teacher. Parents should drop off or pick up their child at the door before and after school. Parents should not be in the classroom areas bringing or getting their child.

Visitors should wear a visitor badge from the office and should have a specific purpose for being at school. Parents should not walk their child to the classroom in the morning.

Parent Organizations

Each elementary school has an active parent organization, complete with monthly meetings, a slate of officers and sub-committees. These organizations provide the school with educational, social and fundraising activities. Getting involved is a good way to be of service to your school and ultimately to your child. Volunteers are essential to these organizations remaining active.

Each school is required to establish a school council pursuant to Massachusetts General Laws Chapter 71 Sections 59C of Section 53 (as added by Section 53 of Chapter 71 of the Acts of 1993). Our elementary school council is a representative, school-based committee and composed of the principal, parents, teachers, and community members.

The Parent School Partnership

Schools are most effective when they have strong relationships with families. The foundation of a strong family/school partnership is regular, open communication – newsletters, notices, open houses, and other events are scheduled on a regular basis. Please be sure to ask if your children have any newsletters or notices from school.

Parents should feel comfortable contacting the school when questions or concerns arise. We ask that you follow a logical chain of communication by contacting the classroom teacher as an initial step. In the event that you are not satisfied with the solution or are unable to resolve an issue, you should contact the Principal. In the rare event that your problem is not addressed at the building level, you should contact the Superintendent of Schools. Parents should also feel free to contact counselors, specialists (therapists, special subject teachers, etc.), and administrators as needed.

Volunteering

Volunteering in schools is a time-honored tradition. School volunteers are always in demand and perform a variety of functions, from working in the office, to preparing materials for teachers and students, to working in the media center or computer lab, to presenting special topics and projects to the students. Your support and expertise are welcomed.

Volunteering does not require specific skills. School staff or other volunteers will train you. Volunteers typically work one day per week, either for the full day or part of the day. The key to a successful experience is dependability. Volunteering requires a commitment for the agreed-upon period of time.

If you are interested in volunteering in our schools, please contact the school and explain what you would like to do and what your schedule will allow. It shall be the policy of the Oxford Public Schools to obtain all available Criminal Offender Record Information (C.O.R.I.) from the criminal history systems board to prospective employee(s) or volunteer(s) of the school department including any individual who regularly provides school related transportation of children, who may have direct and unmonitored contact with children, prior to hiring the employee(s) or to accepting any person as a volunteer. State law requires that school districts obtain C.O.R.I. data for employees of taxicab companies that have contracted with the schools to provide transportation to pupils.

Please note that all CORI request forms must be brought to the Central Administration Office at 4 Maple Road, Oxford, MA by the person requesting such form. Pursuant to 803 CMR 3.05 (4), *"If the Applicant whose CORI is being requested is unable to appear in person at the agency to provide the required government issued identification at the time the CORI request form is completed, then the individual may provide the agency with a clear, legible copy of the identification. In such instances, the agency is required to conduct an in-person verification of the identity of the applicant with at least one form of government issued identification prior to or simultaneously with the applicant beginning or receiving any employment, service or benefit to ensure the CORI received from the CHSB corresponds to the applicant for whom a request was made."*

Health Issues

The school will safeguard the health of every student and encourage them in sound knowledge and common sense health attitudes. In case of accidents or injuries first aid may be given by the nearest member of the faculty or staff. Referral of all injuries should be made to the school nurse.

No treatment other than first aid will be given at school. If further treatment is required, it is the responsibility of the parent or guardian to provide it. In all but minor injuries referral to a physician is advisable.

Any teacher who considers a student physically unfit for class participation shall notify the principal or school nurse, who in turn will notify the parent/guardian. It is important that the school nurse be familiar with the health status of each student. Parents are requested to inform the school nurse of health needs requiring special attention.

ILLNESS

Parents, or their designees, will be notified if their child becomes ill or is injured at school, and conditions warrant dismissal. Transportation must be provided by the parent. In an emergency situation, when the parent or designee cannot be reached, or if time is a critical factor, the directive of the parent, as indicated on their child's information sheet, will be followed.

IT IS IMPERATIVE THAT INFORMATION SUCH AS A TELEPHONE NUMBER, PLACE OF EMPLOYMENT (if applicable), AND THE NAME(S) OF OTHER RESPONSIBLE PERSON(S) TO ACT IN YOUR BEHALF, BE KEPT CURRENT!

MEDICATION

Policies have been established to ensure the health and safety of children needing medicines during the school day. Medication will be kept in the health office and administered there by the nurse. Our school district requires that the following forms must be on file in each child's health record before any medication will be given at school.

1. Signed consent by the parent or guardian to give the medicine.
2. Signed medication order. The written form should be taken to your physician or nurse practitioner for completion and returned to the school nurse. This order must be renewed as needed and at the beginning of each academic year.

Medicines must be delivered to the school in a pharmacy-labeled container by you or a responsible adult whom you designate. Please ask the pharmacy to provide separate bottles for school and home. No more than a 30-day supply of any medicine should be delivered to the school.

Metered dose inhaler medication as prescribed by a physician for asthma and airway disorders will be stored in the Health Office unless otherwise ordered by the physician. As with other medication, a signed permission slip is required.

Non-prescription drugs cannot be administered by the school nurse or school personnel or by the child him/herself.

IMMUNIZATIONS

Massachusetts law requires that each child entering kindergarten be completely immunized against:

1. Diphtheria, Pertussis, (whooping cough), Tetanus (DPT)
2. Polio
3. Measles, Mumps, and Rubella (MMR)
4. HIB vaccine
5. Chicken Pox, (Varicella)

An immunization record must be completed and signed by a physician and returned to school by opening day. Children not properly immunized will be excluded from school! Exceptions to this law will only be granted for allergies and religious beliefs. If you have any questions, you are urged to call the school nurse.

Physical Education

All students participate in Physical Education. A student may be excused from participation for medical reasons. In certain cases, a physician's statement may be required. For safety reasons, students should wear sneakers for gym classes.

Miscellaneous

Confidentiality

A school may release for publication a student's name, class, participation in officially recognized activities and sports, degrees, honors, and awards, and post-high school plans without the consent of the eligible

students or parents provided that the school gives public notice of the types of information it may release under this section and allows eligible students and parents a reasonable time after such notice to inform the school that any or all such information shall not be released without the prior consent of the eligible student or parent. Such notice may be included in the routine information letter required under 602 CMR 23:10.

Student Records

Parents have a right to see their child's school records. Parents should call the Principal to arrange a visit to the school to review the student's cumulative folder. The complete record will be made available to the parents. If students are transferring to another school district, official records will be forwarded by the school following the parent's authorization of a release of records. Official copies cannot be made immediately and sufficient notice is requested to ensure a smooth transfer of student records.

Cell Phones/ Toys / Electronic Devices

The use of cell phones and electronic devices are not allowed during school hours. If brought to school, cell phones must be turned off during the school day and kept out of sight (in a backpack or pocket).

The use of electronic devices such as MP3 players, CD players, Cameras, Games and other such devices detracts from the learning environment and is not allowed during school hours.

Cell phones taken out during the school day and on the bus will be confiscated and turned into the office. A parent may be requested to pick the items up from school.

Please do not allow students to bring toys from home to school as they are a distraction, can get lost, stolen or broken which may cause unnecessary upset for our students.

Homework

Homework and studying serve an important purpose. The purpose of homework is to develop independent study habits, to reinforce classroom instruction, to prepare for upcoming lessons, and to encourage parent participation. Parents should take an active role by supporting and encouraging their children. Read on to learn more about the importance of homework and studying and how it relates to academic success.

Some children may require additional time or less time to complete assignments. If you or your child experience excessive frustration or have concerns with a particular assignment or type of assignment, please discuss this with the classroom teacher. Homework also teaches responsibility by taking the folder and/or assignment notebook home each day.

The Importance of Homework

Homework is not simply busy-work assigned to children to keep them occupied at home. Homework assignments and studying serve several educational needs that are essential to receiving a complete education. They provide an opportunity for children to develop self-discipline, study habits, and time management skills. Children can set homework goals and enjoy a feeling of accomplishment when the goals are met. Children learn how to be independent and responsible. They practice taking initiative by beginning projects on their own and studying when necessary. Homework also closes the gap between school and home. Learning should happen at home as well as in school.

Types of Homework

- Practice homework allows children to review what they covered in class. This increases comprehension of a subject or topic while helping children retain it for longer periods of time.
- Preparation homework helps children prepare for an activity or in-class assignment. This includes research and brainstorming.
- Extension homework includes long term assignments such as papers or projects. These assignments should correlate with subjects kids are learning in the classroom.

Parents Can Help

Parents can help children succeed at homework. Setting aside a specific time every day can make homework part of a child’s daily routine. Find a quiet and distraction-free area that your child can use when doing his or her homework. Review homework assignments with children and provide support and guidance, but be sure not to do the work for them. If assignments are unclear, communicate with the teacher and ask questions. Keep all supplies students may need at home. It also may be helpful to introduce children to the many resources available that can make homework easier. The library and internet are helpful for researching for reports and projects.

Most importantly, parents should provide constant support and encouragement. Demonstrate to children how important homework is by taking an interest and guiding them.

Time Allotments

The time allotted to homework should increase gradually from grade to grade. The time limits are guidelines that should remain flexible. Individual differences among children may be taken into consideration by parents and teachers.

Grades K-4: Suggested average time per day: 30-40 minutes

Transfer

Parents of students transferring out of the Oxford Public Schools must personally report to the school office to sign the necessary forms. Advance notification of withdrawal date is necessary.

Kindergarten

Children who will be 5 years of age on or before August 31st of the school year in which they wish to enroll will be eligible to enter kindergarten. The Oxford Public Schools recognize that some children who turn 5 years old shortly after the cutoff date of August 31st may exhibit the cognitive, emotional, and social maturity to begin kindergarten. As the District’s mission is to provide the best education for all students, children seeking early admittance who turn 5 years old between September 1st and October 31st must meet the following criteria to be considered for entrance:

1. Written letters from day care/preschool providers and/or teachers with direct knowledge of the child’s readiness for entrance into a full day kindergarten program.
2. Kindergarten questionnaire completed by parent, pediatrician and current day care/preschool provider. In the case of a child who has not attended daycare or preschool, a comprehensive questionnaire will be completed by the full time guardian.

SEXUAL HARASSMENT POLICY
Oxford School Committee

I. Introduction

It is the goal of the Oxford School Committee (The "Committee"), as chief executive officer of the Town of Oxford Public Schools ("The District") to promote an environment that is free of sexual harassment. Sexual harassment of employees as well as students occurring in the environment or in other settings in which employees and/or students may find themselves in connection with the School District is unlawful and will not be tolerated. Further, any retaliation against an individual who has complained about sexual harassment or retaliation against individuals for cooperating with an investigation of a sexual harassment complaint is similarly unlawful and will not be tolerated. To achieve our goal of providing an environment free from sexual harassment, the conduct that is described in this policy will not be tolerated and we have provided a procedure by which inappropriate conduct will be dealt with, if encountered by employees and/or students. **(For purposes of this policy, the word "employee" means anyone in the service of the Committee, either on a paid or volunteer basis.)**

Because the District takes allegations of sexual harassment seriously, it will respond promptly to complaints of alleged sexual harassment and, where it is determined that such inappropriate conduct has occurred, will act promptly to eliminate the conduct and impose such corrective action as is necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth our goals of promoting an environment that is free of sexual harassment, the policy is not designed or intended to limit our authority to discipline or take remedial action for conduct which we deem unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment.

II. Definition of Sexual Harassment

"Sexual harassment" means sexual advances, requests for sexual favors, and verbal or physical conduct of a sexual nature when:

- a. submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly as a term or condition of employment or a student's status; or
- b. submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly as a basis for employment decisions or student status decisions; or
- c. such advances, requests or conduct have the purpose or effect of unreasonably interfering with an employee's and/or student's work performance by creating an intimidating, hostile, humiliating or sexually offensive environment.

Under these definitions, direct or implied requests by a supervisor for sexual favors in exchange for actual or promised job benefits such as favorable reviews, salary increases, promotions, increased benefits, or continued employment, constitutes sexual harassment.

The legal definition of sexual harassment is broad and in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating an environment that is hostile, offensive, intimidating, or humiliating to male or female employees and/or students may also constitute sexual harassment.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct which if unwelcome, may constitute sexual harassment depending upon the totality of the circumstances including the severity of the conduct and its persuasiveness:

- Unwelcome sexual advances – whether they involve physical touching or not;
- Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life; comment on an individual's body, comment about an individual's sexual activity, deficiencies, or prowess;
- Displaying sexually suggestive objects, pictures, cartoons;
- Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- Inquiries into one's sexual experiences; and,
- Discussion of one's sexual activities.

All employees and/or students should take special note that, as stated above, retaliation against an individual who has complained about sexual harassment, and retaliation against individuals for cooperating with an investigation of sexual harassment complaint is unlawful and will not be tolerated by the Committee.

III. Complaints of Sexual Harassment

If any of our employees and/or students believes that he or she has been subjected to sexual harassment, the employee and/or student has the right to file a complaint with the appropriate person listed below. This may be done in writing or orally.

The employee or student should file the complaint promptly following any alleged incident of harassment. The employee or student should be aware that the longer the period of time between the event giving rise to the complaint and the filing, the more difficult it will be for the District to reconstruct what occurred. The employee or student will be requested to write out his or her complaint to document the change or to sign a written statement.

Employees or students will not have to go through the regular chain of reporting procedures when reporting sexual harassment. If the employee or student is uncomfortable contacting the Sexual Harassment Grievance Officer because he or she believes the Sexual Harassment Grievance Officer may not receive the complaint impartially, the employee or student may contact the Alternate Sexual Harassment Grievance Officer.

Sexual Harassment Grievance Officers are also available to discuss any concerns you may have and to provide information to you about our policy on sexual harassment and our complaint process.

IV. SEXUAL HARASSMENT INVESTIGATION

On receiving the complaint, the Sexual Harassment Grievance Officer will promptly investigate the allegation in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances. The investigation will include a private interview with the person filing the complaint and with witnesses. The Sexual Harassment Grievance Officer will also interview the person alleged to have committed sexual harassment. When the Sexual Harassment Grievance Officer has completed his/her investigation, he/she will, to the extent appropriate inform the person filing the complaint and the person alleged to have committed the conduct of the results of that investigation.

If it is determined that inappropriate conduct has occurred, the District will act promptly to eliminate the offending conduct, and where it is appropriate the District will also impose disciplinary action.

V. DISCIPLINARY ACTION

If it is determined that inappropriate conduct has been committed by one of our employees and/or students, the District will take such action as is appropriate under the circumstances. Harassment occurs when:

- Such conduct has the purposes or effect of substantially interfering with an individual’s work or educational performance, or creating an intimidating, hostile, or offensive working or education environment.
- Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment or success as a student.
- Submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting such individual.

Harassment Investigation

On receiving a complaint, the Harassment Grievance Officer will promptly investigate the allegation in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances. The investigation will include a private interview with the person filing the complaint and with the witnesses. The Grievance Officer will also interview the person alleged to have committed harassment. PARENTAL NOTIFICATION RELATIVE TO SEX EDUCATION

At the beginning of each school year, all parents/guardians of students in our schools will be notified, in writing, of the course and curriculum we offer that primarily involve human sexual education or human sexuality issues.

The Superintendent of Schools will determine the administrator(s) responsible for sending the notice(s). Parents/Guardians of students who enroll in school after the start of the school year will be given the written notice at the time of enrollment. If the planned curriculum changes during the school year, to the extent practicable, parents/guardians will be notified of this fact in a timely manner before implementation.

Each such notice to parents/guardians will include a brief description of the curriculum covered by the policy, and will inform parents/guardians that they may:

1. exempt their child from any portion of the curriculum that primarily involves human sexual education or human sexuality issues, without penalty to the student, by sending a letter to the school principal requesting an exemption. Any student who is exempted by request of the parent/guardian under this policy, may be given an alternative assignment.
2. inspect and review program instruction materials for these curricula, which will be made reasonably accessibly to parents/guardians and others to the extent practicable. Parents/guardians may arrange with the principal to review the materials at the school, and may also review them at other locations that may be determined by the Superintendent of Schools.

The School Committee **may** expel any elementary school student who uses or is found in possession of any other weapon on school premises or at a school-sponsored situation.

For purposes of this Policy, a ‘weapon’ includes, but is not limited to, a gun, knife, slingshot, blowgun, blackjack, metallic knuckles, including a ring intended to be worn on more than one finger (‘fused rings’) or knuckles of any substance which could be put to the same use with the same or similar effect as metallic knuckles, nunchaku, zoo bow, also known as klackers or kung fu sticks, or any similar weapon consisting of two sticks of wood, plastic, or metal connected at one end by a length of rope, chain, wire, or leather, or a shuriken or any similar pointed starlike object intended to injure a person when thrown, or any armband, made with leather, which has metallic spikes, points, or studs, or any similar device made from any other substance, or a cestus or similar material weighted with metal or other substances, and worn on the hand, or a manrikigusari, or similar length of chain having weighted ends. 4. In addition to real weapons, fake, plastic, or “pretend” weapons are not allowed.
5. All lockers available to students are the property of the Oxford Public Schools. Use of lockers by students is regulated by the school administration and all lockers are subject to inspection by the school administration at any time. Any weapon found in a locker in violation of school Policy may be considered to be the property of the student assigned to the locker for purposes of disciplinary action under this code.
6. For security reasons, students will not be permitted to wear outerwear (coats, jackets and hats) or carry large book/gym bags with them throughout the school day. Students must store all books, bags, gym bags, and outerwear (coats, jackets and hats) in their locker during the school day.
7. Student signatures acknowledging receipt of the ‘Policy on Possession or use Weapons and Additional Security Measures’ is required. Please see the last page of the Parent / Student Handbook.

Vandalism Policy

Oxford Public Schools should be respected as teaching and learning environments where students, staff, parents and community members can feel safe and secure. The District is committed to maintaining orderly educational and administrative processes in keeping schools and administrative offices free from disruptions. The District, in attempting to ensure that reparations are made and proper disciplinary action is taken, is instituting this policy on vandalism to send a clear and concise message to students and parents that vandalism will not be tolerated and any monetary burden will have to be borne by the parents of the perpetrator.

Vandalism not only affects the aesthetics of the building or property, but also sends the wrong message to our younger students, presents a negative appearance of our District and campuses to the community, promotes further acts of vandalism and could even encourage violence. These acts are also counterproductive in that they disrupt the normal flow of activities in and around the school or District and costly staff time and energy is invested in cleaning and repairing. In cases of severe damage, valuable instruction time may be lost if students are displaced from their classrooms.

Every person who commits any of the following acts with respect to any real or personal property not his or her own, in cases other than those specified by state law, is guilty of vandalism: 1. Defaces with graffiti or other inscribed material; 2. Damages; 3. Destroys.

"Vandalism" has a number of definitions, all of which have the common elements of destruction, damage, injury, or defacement of another's property. In recognition of the debilitating impact of vandalism, current law (see below) provides for criminal penalties, school imposed penalties, as well as civil liability for students and their parents.

In order to curtail vandalism and ensure that proper respect is shown for the property of others, acts of vandalism involving District property or the property of District employees and/or students will be considered serious offenses. Any student(s) who commits an act of vandalism against District property or the property of a fellow student or District employee related to school attendance or a school related activity, will be held strictly accountable. Such accountability will include appropriate disciplinary action by the District including, but not limited to suspension or expulsion; personal and parental liability and responsibility for damages; and, where appropriate, referral to the criminal justice system. In addition to payment of the cost of damages, vandalism to a school bus will result in suspension of the student's riding privilege. The degree of severity of punishment will be determined principal, following Mass General Laws, Case Law, 603 Code Mass Regulations and District policy.

As a part of the disciplinary process, full restitution for damages, including monetary restitution will be considered part of any rehabilitation and/or readmission plan. In recognition of parental responsibility and involvement, parents/guardians of any student who commits vandalism of District property or the property of a District employee shall be responsible for restitution of damages to the maximum extent permitted by law, and if necessary, the School Committee will authorize pursuit of a court action for collection of such damages.

Codes of discipline, as well as procedures used to develop such codes shall be filed with the department of education for informational purposes only.

In each school building containing the grades nine to twelve, inclusive, the principal, in consultation with the school council, shall prepare and distribute to each student a student handbook setting forth the rules pertaining to the conduct of students. The annual review shall cover all areas of student conduct, including but not limited to those outlined in this section.

The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of this appeal. Playground and/or Climbing Wall Policy

The playground is outside the school and has the traditional structures that would be included as part of the area. The equipment meets all of the state standards as constructed. The surface under and around the equipment is soft in order to lessen the chance of injury.

The climbing wall is inside the gymnasium. It is less than eight feet high, but the students "climb" the wall in a horizontal direction so that their feet should never be more than three feet off the floor that is covered with a mat. Your child will climb under the careful supervision of an adult instructor at all times.

ELEMENTARY BULLYING PREVENTION PLAN

In accordance with the Massachusetts General Laws Chapter 92 of the Acts of 2010, The Oxford Public Schools will not tolerate or accept bullying, cyberbullying and/or bullying behaviors in any form. We will respond to any reported incidences of bullying in a timely manner, and investigate and take action as needed and in keeping with the Elementary discipline code and procedures.

DEFINITIONS

This past spring the Massachusetts Legislature passed Chapter 92 of the Acts of 2010 on bullying and cyberbullying. Although the elementary schools have been proactive in bullying prevention strategies, such as the Second Step program, the new law calls for specific policies and procedures. The law defines bullying and related behaviors as follows:

Bullying—The repeated use by one or more students of a written, verbal or electronic expression or physical act or gesture or any combination thereof, directed at a victim that:

- (i) causes physical or emotional harm to the victim or damage to the victim’s property;
- (ii) places the victim in reasonable fear of harm to himself or his property;
- (iii) creates a hostile environment at school for the victim;
- (iv) infringes on the rights of the victim at school; or
- (v) materially and substantially disrupts the education process or the orderly operation of a school. For purposes of this section, bullying shall include cyberbullying.

Cyberbullying—Bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo electronic or photo optical system, including, but not limited to, email, internet communications, instant messages or facsimile communications. Cyberbullying shall also include:

- (i) The creation of a web page or blog in which the creator assumes the identity of another person or
- (ii) The knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions listed above in i-v.

Hostile environment-A situation in which bullying causes feelings of intimidation, ridicule, or insult which are significant enough to interfere with the conditions of the child’s education.

Perpetrator- A student who engages in bullying or retaliation.

Victim- A student who has been bullied or retaliated against.

Retaliation- To harm or do wrong to a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

GUIDELINES FOR STUDENTS

What is bullying?

Bullying happens when someone hurts or scares another person on purpose and the person being bullied has a hard time defending himself or herself. Bullying usually happens over and over again. Bullying may include some of the following behaviors:

- Punching, shoving, and other acts that hurt people physically
- Spreading bad rumors about people
- Keeping certain people out of a “group”
- Teasing people in a mean way
- Getting certain people to “gang up” on others
- Blocking another student from using a computer, playground equipment, etc.

- Making mean nonverbal hand gestures or expressions

Bullying can also happen online or electronically. Cyberbullying is when children bully each other using the Internet, cell phones, or other cyber technology. This can include:

- Sending mean text, email, or instant messages
- Posting nasty pictures or messages about others in blogs or on web sites
- Using someone else's user name to spread rumors or lies about someone

Although one time incidents may be deliberately mean or cruel, they may not be bullying. Actions are considered bullying when they happen over and over.

What should you do if you are bullied or you have information about someone being bullied?

- Tell your parents or other trusted adults. They can help stop the bullying.
- If you are bullied at school, tell your teacher, school counselor, or principal.
- Telling is not tattling.
- Don't fight back. Don't try to bully those who bully you.
- Try not to show anger or fear.
- Calmly tell the student to stop—or say nothing and then walk away
- Use humor, if this is easy for you to do.
- Try to avoid situations in which bullying is likely to happen

GUIDELINES FOR PARENTS

Is this bullying?

One time incidents may be deliberately mean or cruel, but they may not be bullying. However, some other behaviors may violate other school rules so it should be reported to an adult as soon as possible. For behavior to be deemed bullying, it needs to include all of the following elements (MGL Chapter 92, Acts of 2010).

- Must be repeated action(s) by one or more students
- Must be a written, verbal or electronic expression or a physical act or gesture
- Must be directed at a victim so that it causes one or more of the following:
 - Physical or emotional harm to the victim;
 - Damage to the victim's property;
 - Places the victim in reasonable fear of harm to him/herself or of damage to his/her property;
 - Creates a hostile environment at school for the victim;
 - Infringes on the rights of the victim at school; or
 - Disrupts the education process or the orderly operation of a school.

OXFORD PUBLIC SCHOOLS BULLYING/HARASSMENT POLICY

I. Bullying and Harassment Policy

- A. It is the policy of the Oxford Public Schools to take pro-active, reasonable measures designed to provide a learning and working atmosphere for students, employees and other members of the school community free from sexual harassment, bullying, hazing and intimidation. These terms are referenced herein as “harassment”, which is more particularly defined below. The District in the strongest possible terms condemns harassment, whether based on race, color, religion, national origin, age, gender, sexual orientation, disability, or any other reason.
- B. It is a violation of policy for any administrator, teacher or other employee, or any student or other member of the school community, to engage in or condone harassment in school, on school grounds or at or in a school-related function, activity, communication or contact, or to fail to report or otherwise take reasonable corrective measures when they become aware of an incident of harassment.
- C. This policy is not designed or intended to, nor shall it, limit the school’s authority to take disciplinary action to take remedial action when such harassment occurs out of school, but has a sufficient nexus to school under applicable law, or is disruptive to an employee’s or student’s work or participation in school-related activities.
- Reports of harassment, including but not limited to cyber-bullying by electronic or other means, occurring in or out of school will be reviewed, and, when a sufficient nexus to school or school-related work exists, will result in discipline.
- D. It is the responsibility of every employee, student and parent to recognize acts of harassment and take reasonable action to see that the applicable policies and procedures of this school district are implemented. All members of the school community are and must act as partners in such efforts if we are to have any reasonable chance of success in preventing or minimizing activity of this type, which is harmful to both the victim and the perpetrator. The children attending our schools are in critical, formative stages of their lives. To the extent that we, working together, are able to show them a better way, they will reap immeasurable, lifelong benefits.
- E. Any employee or student who believes that he or she has been subjected to harassment has the right to file a complaint and to receive reasonably prompt and appropriate handling of the complaint. While proper enforcement of this policy foresee ably may require disclosure of any or all information received, all reasonable efforts will be made to maintain confidentiality to the extent consistent with such enforcement.
- F. The Building Principal/Designee shall be responsible for assisting employees and students seeking guidance or support in addressing matters relating to any form of harassment.

II. Prohibition and Definitions

Harassment, including bullying, may take a variety of forms. It is utterly unacceptable in a school or work environment. As a result, neither any student, nor employee nor other member of the school community shall be subjected to harassment, intimidation, bullying, or cyber-bullying in any public educational institute.

- A. “Harassment”, including “Bullying”, the latter including but not limited to “cyber-bullying”, as used in this policy means an unwelcome written, electronic, verbal or physical communication, act or gesture which: (1) reasonably causes a student or employee to feel coerced, intimidated, harassed or threatened and (2) under the circumstances foresee ably may cause: (a) a reasonable person to suffer physical or emotional harm, or (b) damage to a student’s or employee’s property, or (c) a disruptive or hostile school environment. The behavior must interfere with an employee’s ability to perform his or her duties or with a student’s academic performance or ability to learn, or interfere with a student’s ability to participate in or benefit from services, activities, or privileges:
1. that are being offered by or through the school district; or
 2. during any district-related educational program or activity; or
 3. while in school, on or using school district property or equipment, in a school vehicle, on a school bus, at school-designated bus stops, at school-sponsored activities, at school-sanctioned events; or
 4. through the use of data, telephone or computer software that is accessed through a computer, computer system, or computer network or any public education institute related to or provided or facilitated by the district; or
 5. in circumstances otherwise having a sufficient nexus with the school district.
- B. “Electronic communication” as used in this policy means any communication through an electronic device, including but not limited to a telephone, cellular phone, computer or pager.

III. Guidelines and Procedures for Investigating and Processing Harassment Claims

Harassment may take many forms. In a school district such could involve an instance of staff member to staff member, staff member to student, student to staff member, or student to student. It conceivably could also include parent to a student other than the parent’s child, staff member to parent, or parent to staff member. This listing is illustrative and the procedures set forth herein are not intended to limit the definition of harassment, nor the District’s authority to take appropriate action as to same except to the extent that specific subject matter is expressly addressed herein.

Guidelines and procedures for dealing with any charge of harassment are as follows:

- A. By law, harassment is defined by the victim’s perception in combination with objective standards or expectations. What one person may consider acceptable behavior may be viewed as harassment by another person. Therefore, in order to protect the rights of both parties, it is important that the victim make it clear to the harasser that the behavior is objectionable.

- B. In all charges of harassment, the victim should describe in writing the specifics of the complaint to ensure that the subsequent investigation is focused on the relevant facts. If possible victim should sign the complaint. Oral and anonymous complaints will be reviewed but are inherently difficult to investigate and may not be procedurally fair; as a result, no disciplinary action shall be taken on anonymous complaints unless verified by what the administration in the good faith exercise of its reasonable discretion deems to be clear and convincing evidence. All other complaints will be reviewed based on a preponderance of evidence standard, namely whether the administration in the exercise of its aforementioned discretion, taking into account all material information and circumstances, concludes that a violation of this policy more likely than not has occurred.
- C. Any school employee who has reasonably reliable information that would lead a reasonable person to suspect that a person may be a target of harassment, bullying or intimidation shall immediately, as a condition of employment report it to the administration. Each school shall document each prohibited incident that is reported and confirmed, and report each such incident and the resulting consequences, including discipline and referrals if any, to the Superintendent's office in timely fashion and without any avoidable delay.
- D. A good faith report from a staff member is not grounds for any legal liability and, since such reports are a condition of the staff member's employment is considered to have been made in the course of employment for purposes of employment the Municipal Tort Claims Act, M.G.L. c. 258. As a result, the employee would not be subject to damages simply by reason of making such a report, and in the event of a suit based solely thereon would be covered by the school district's insurance policy which provides defense of such suits.
- E. If an instance of student to student harassment, as defined in Sec. II above, is reported to a staff member other than an administrator, the staff member must inform the Building Principal/Designee in timely fashion. If the alleged harasser would otherwise be responsible for conducting an investigation, the Alternate Harassment Coordinator designated by the Superintendent or District School Committee, who is presently the Curriculum Coordinator, shall conduct the investigation and report to the alleged harasser's immediate supervisor.
- F. If a situation involving a charge of staff member to student harassment, as defined in Sec. II. above, is brought to the attention of any staff member, the staff member should notify the Building Principal immediately.
- G. Once a charge of harassment has been made, the following course of action should be taken.
 - 1. The Building Principal or such Principal's designee should conduct a reasonable, factual investigation by means of discussions with the individuals involved, any other witnesses if any, review of any documents and other, written or electronic materials, etc.

If the Principal himself or herself does not conduct the investigation, he or she should review the designee's report and supporting documentation (by way of example only, any written, signed statements by the complainant setting forth the allegations, any such statement by the accused and witnesses, and any other materials such as those mentioned above), as appropriate to the then current stage of the investigation and before making any determination as to whether a violation more likely than not has occurred, and if the Principal deems such necessary or advisable should conduct direct interviews himself or herself during or following such review and before making a determination.

In situations involving allegations against an employee, the employee should be accorded all rights provided by any applicable statute and/or collective bargaining agreement, including but not limited to being informed of his/her right to have a third party present at the time of the discussion if apt, and in the case of a teacher of the right to counsel if the any discussion could conceivably lead to a suspension (see, M.G.L. c. 71, sec. 42D).

In situations involving harassment of students, the Principal should conduct an investigation with the appropriate classroom or special subject area teacher. Parents will be informed of the situation and invited to participate in resolution discussions if warranted.

Parents of students alleged to have engaged in harassment as to whom suspension is imposed shall be notified that they, or one of them must attend a meeting at which the behavior, words or images giving rise to the complaint may be reviewed. Before any final decision is made as to whether to impose discipline exceeding ten (10) school days, and the nature of such discipline, the student and her or his parent(s) will be informed in reasonable detail of the factual allegations underlying the complaint and given an opportunity to respond to and provide any information material to same.

In the school administration's discretion, depending on its preliminary assessment of the seriousness of a reported incident of alleged harassment, a student accused of harassment may be suspended from school under the procedures for suspension set forth in the student-parent handbook and not readmitted to the regular school program until the student and his or her parent(s) attend such meeting. A ten (10) school day suspension if deemed reasonably necessary by the administration may be imposed prior to such a meeting, but before any such were imposed the student shall be informed of the ground(s) for such possible suspension in sufficient detail to allow the student to respond to the charge(s). A satisfactory conference with the student and his or her parent(s) or legal guardian(s) must occur prior to the student's readmission.

It is important that each situation be resolved as confidentially and as quickly as circumstances reasonably permit.

2. At any stage of the proceedings the alleged harasser and the victim may discuss the matter at a resolution meeting in the presence of the Principal/Designee and/or parent when appropriate.

During this discussion, the offending behavior should be described by the victim and the administration. If warranted a request for a change in behavior should be made, and a promise should be made that the described behavior will stop and not recur. If circumstances do not permit a face to face meeting the administration will present the victim's position. Follow-up verification procedures will be explained. Failure to comply after a resolution, if any, is voluntarily reached at such a meeting will result in appropriate discipline. The Principal or his or her designee at the close of the meeting shall prepare a written summary of the discussion held at the meeting and of any resolution, if any, agreed to at same, and shall ask the parties attending the meeting to review, date and sign the agreement. The administrator shall sign the summary, and if any party to the meeting refuses to sign shall note that fact thereon. No such memorandum must be included in a student's school record or an employee's personnel file unless otherwise required by law, but the Principal shall keep a copy of same in her or his records.

H. If after a resolution meeting with the involved parties, the Building Principal determines that further disciplinary action must be taken, the following may occur:

1. In instances involving student to student or student to staff member harassment, subject to applicable law and the disciplinary procedures set forth in the student-parent handbook, the student may be subject to discipline, including but not limited to counseling, suspension or expulsion.
2. In instances involving staff member to student and staff member to staff member harassment, findings will be reported to the Superintendent of Schools for further action. Personnel action, up to and including discharge from employment, may also be initiated at this point, consistent with applicable law and collective bargaining agreement.
3. In all cases where in the good faith judgment of the Principal or Superintendent the circumstances so warrant, a referral to law enforcement will be made. School officials will coordinate with the Police Department to identify a police liaison for harassment cases.

IV. Retaliation:

In the event of retaliation in any form against any person who has made or filed, or provided any information as to, a complaint relating to harassment, any employee or student found to have engaged in same shall be subject to discipline in accordance with applicable law. In the case of an employee, up to and including dismissal from employment, and in the case of a student up to and including expulsion. If warranted a referral to law enforcement shall also be made.

V. Confidentiality:

Reports of harassment should be kept completely confidential to the extent consistent with necessary investigation procedures, with the goal of protecting the victim and stopping the behavior.
